

# FUND FOR UFO RESEARCH

P.O. Box 277  
Mount Rainier, MD 20712

4th Quarter 2000, October-December

## Office Activity

This quarter has been slow in terms of sightings, press interest, and general office activity.

## Press Newsletter

*The UFO Report* continues to be mailed on a regular basis to the world's press. The November issue included a postpaid questionnaire to help the FUFOR determine what recipients would or would not want to see in the *Report*. Of almost 700 copies mailed, only 10 questionnaires were returned.

## National Aviation Reporting Center on Anomalous Phenomena (NARCAP)

Dick Haines has formed NARCAP to investigate pilot encounters with unidentified aviation phenomena (UAP). The organization includes a scientific panel that will investigate reports. Web site for NARCAP: [www.narcap.org](http://www.narcap.org)

## New Proposal

Jack Kasher's proposal was approved. This proposal will determine whether a female abductee drew diagrams in 1978 that represented specific crop circle patterns that appeared 12 years later.

## Oral History Project

Wendy Connors interviewed Richard Hall at his home for six hours, the latest subject in her ongoing oral history video project.

## Publications (FUFOR)

Jan Aldrich has sent FUFOR foo fighter documents suitable for a publication. It is awaiting a cover design and then will be sent to the printers.

## Publications (Coalition-CUFOS, FUFOR, MUFON)

*The UFO Evidence II* by Richard Hall, is due in the stores in January 2001.

Ted Phillips's Delphos report is currently being edited by Ms. Jennie Zeidman.

## Future Funding

No word has been received regarding Coalition projects that were to have been funded by Firmage. In a meeting in mid-2000, a number of projects were presented to Larry Lemke, Firmage's representative for UFO matters.

## REPLY FORM 3Q01

Below are my printed name and address:

Enclosed is my tax-deductible contribution to support the Fund:

### Latest Releases From the Fund for UFO Research

Please send the materials indicated below:

\_\_\_ ***Captain Edward J. Ruppelt: Summer of the Saucers—1952*** by Michael David Hall and Wendy Ann Connors. In 1956, Capt. Edward J. Ruppelt published *The Report on Unidentified Flying Objects*, a book that rapidly became a seminal text on the subject, retaining its importance to this very day. But what kind of man was Capt. Ruppelt? What has been learned of his life and times since the publication of his book? The answer to the latter question is *plenty* and indefatigable researcher Connors along with co-writer Michael Hall give a comprehensive, chock-full-of-information account of the days when UFOs were seemingly inundating the country and the Air Force took its “saucering” seriously. This detailed volume reinforces time and again the assertion that the anomalous nature of the UFO phenomenon was solidly established by the early-1950s (if not before). 304 pages, profusely illustrated, perfectbound. **\$25.00**

\_\_\_ ***The UFO Evidence, Volume II: A Thirty-Year Report*** by Richard Hall. Simply put, one of the five best UFO books ever written. Five years in the making and with a cast of thousands, *The UFO Evidence II* is overwhelming in its presentation of the data that make the UFO phenomenon “the greatest scientific problem of our times.” Included herein (and, for that matter, in its earlier companion volume, *The UFO Evidence*) is the very essence of the UFO mystery: eyewitness accounts from outstanding observers, the patterns and puzzling luminosities, flaps and waves and concentrations of UFO sightings, the encounters with seeming aliens, the bizarre shapes, the erratic flight patterns, Roswell. To paraphrase Mulder of the *X-Files*, *the truth is in here*, and it is up to us—the readers—to tease it out. Any attempt to dismiss the UFO phenomenon as a series of misrepresentations of prosaic events must take into account not only much solid witness testimony but also the amazing *consistency* of case detail Richard Hall has proffered for our collective perusal. Short of possessing an actual piece of a UFO, one can do no worse than having Hall’s treatise in hand to study over and over again. Hardcover, 680 pages, illustrated with drawings and photographs. **\$50.00**

(Over, please)

Porto \$10.00
